Fleksis

Empowering every voice in education

Fleksis is a modern, configurable and AI-enabled Student Information System for higher education, covering the full student lifecycle from admission to graduation.

Built for institutions operating across campuses, countries and languages, Fleksis combines global readiness with regional depth and enterprise-grade delivery.

The Fleksis solution

A modern SIS designed to address the most critical challenges faced by higher education institutions.

Fully configurable

Configuration-first SIS. Empower your team to configure rules, workflows and reports without vendor dependency.

Cost-efficient

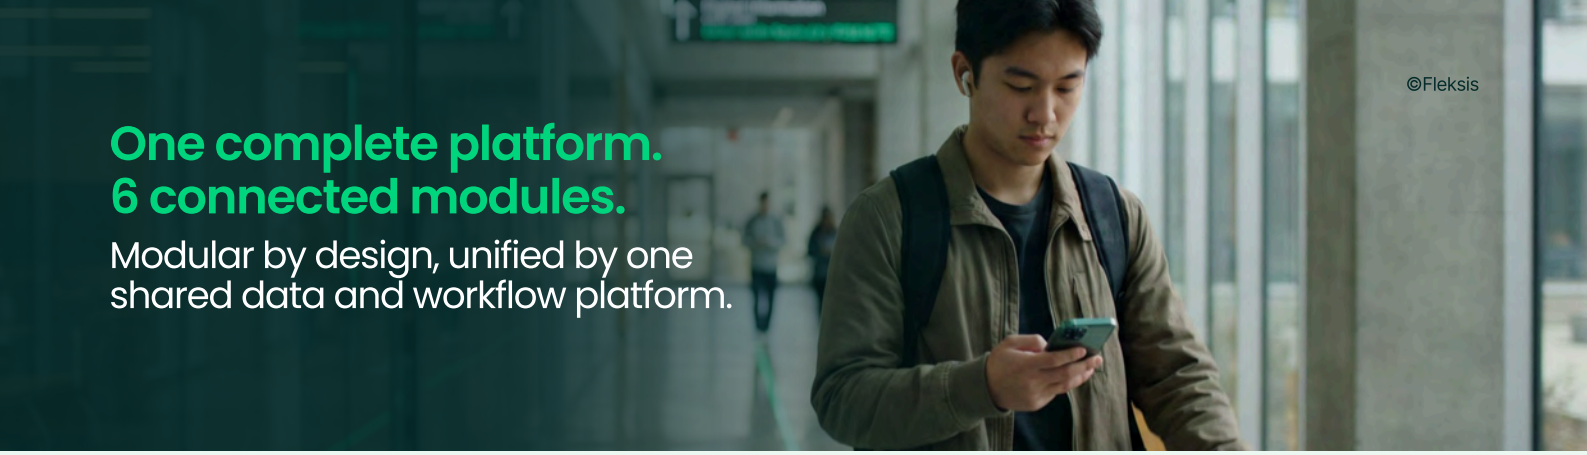
A cost-efficient enterprise SIS designed to reduce complexity and long-term vendor dependency.

Data-driven

Empower your institution with a 360° view and real-time insights for smarter decision-making.

Modern UX

Human-focused interface. Bilingual Arabic/English. Mobile and web portals. Built for administrators and students alike.



One complete platform. 6 connected modules.

Modular by design, unified by one shared data and workflow platform.

1. ADMISSIONS

- **Configurable processes:** Rules and criteria by program.
- **Automated workflows:** Eligibility, evaluation and decisions.
- **Integrated portal:** Applications, payments and entrance exams.
- **Online applications:** Personal, academic and supporting documents.
- **Flexible payments:** Institution-defined payment plans.
- **Academic history:** Prior institution records.
- **Engagement tools:** Push, email and SMS notifications.
- **CRM integration:** Seamless connection to CRM platforms.

2. ACADEMICS

- **Global education models:** Multi-campus, multi-country and flexible calendars.
- **Flexible programs:** Adaptable structures, criteria and requirements.
- **People management:** Student, faculty and staff profiles.
- **Course operations:** Planning, scheduling, attendance and conflict detection.
- **Faculty workload:** Automated workload calculation and planning.
- **Student lifecycle:** Registration, grades, transfers and graduation.
- **Continuing education:** Course enrollment, payments and certificates.
- **Accreditation & insights:** Accreditation, reporting and surveys.
- **Platform integrations:** LMS, CMS and identity platforms.

3. STUDENT ACCOUNT MANAGEMENT

- **Multi-currency:** Financial operations across regions.
- **Tuition & refunds:** Installments and refund rules.
- **Financial aid:** Aid and sponsor agreements.
- **Configurable fees:** Charges by program or faculty.
- **Financial rules:** Policies aligned with academic structures.
- **Financial reporting:** Balances, statements and cash flow.
- **ERP integration:** Synchronize with external ERP systems.
- **Financial holds:** Controls for non-compliant accounts.

4. AI CAPABILITIES

- **Smart scheduler:** Optimized, editable schedules across institutional constraints.
- **Risk assessment:** Early risk detection for students, courses and programs.
- **AI student assistant:** Real-time support and personalized academic recommendations.

5. STUDENT MOBILE APP

- **Student profile:** Personal and academic information.
- **Cohort progress:** Real-time academic progress.
- **Schedule:** Courses and timetable access.
- **Self-enrollment:** Direct course registration.
- **Financial status:** Account and payment information.
- **Academic records:** Transfers and unofficial transcripts.
- **Notifications:** Schedule, transfer, grade and registration updates.

6. REPORTING & DASHBOARDS

- **Embedded reports:** Academic and financial reporting.
- **Dynamic reporting:** Reports tailored to institutional needs.
- **Certificate workflows:** Requests and administrative approvals.
- **Data exports:** Filtered data to PDF or Excel.
- **Student publishing:** Documents and links shared with students.
- **Surveys:** Institutional feedback and tracking.

Why Fleksis

Fleksis scales global education without complexity

Six advantages combine global readiness, embedded intelligence and regional delivery.

Built for global education

Multi-campus, multi-country, multilingual and multi-currency.

AI-powered operations

Scheduling, risk detection, recommendations and automation.

Complete student lifecycle

Admission through graduation in one connected platform.

Configuration without vendor lock-in

Adapt workflows, rules and fields without vendor customization or added development costs.

Open & connected ecosystem

APIs, Microsoft ecosystem, LMS and ERP readiness.

Proven regional delivery

Arabic support, local expertise and regional deployments.

Client testimonials

150-year-old USJ modernizes with Fleksis

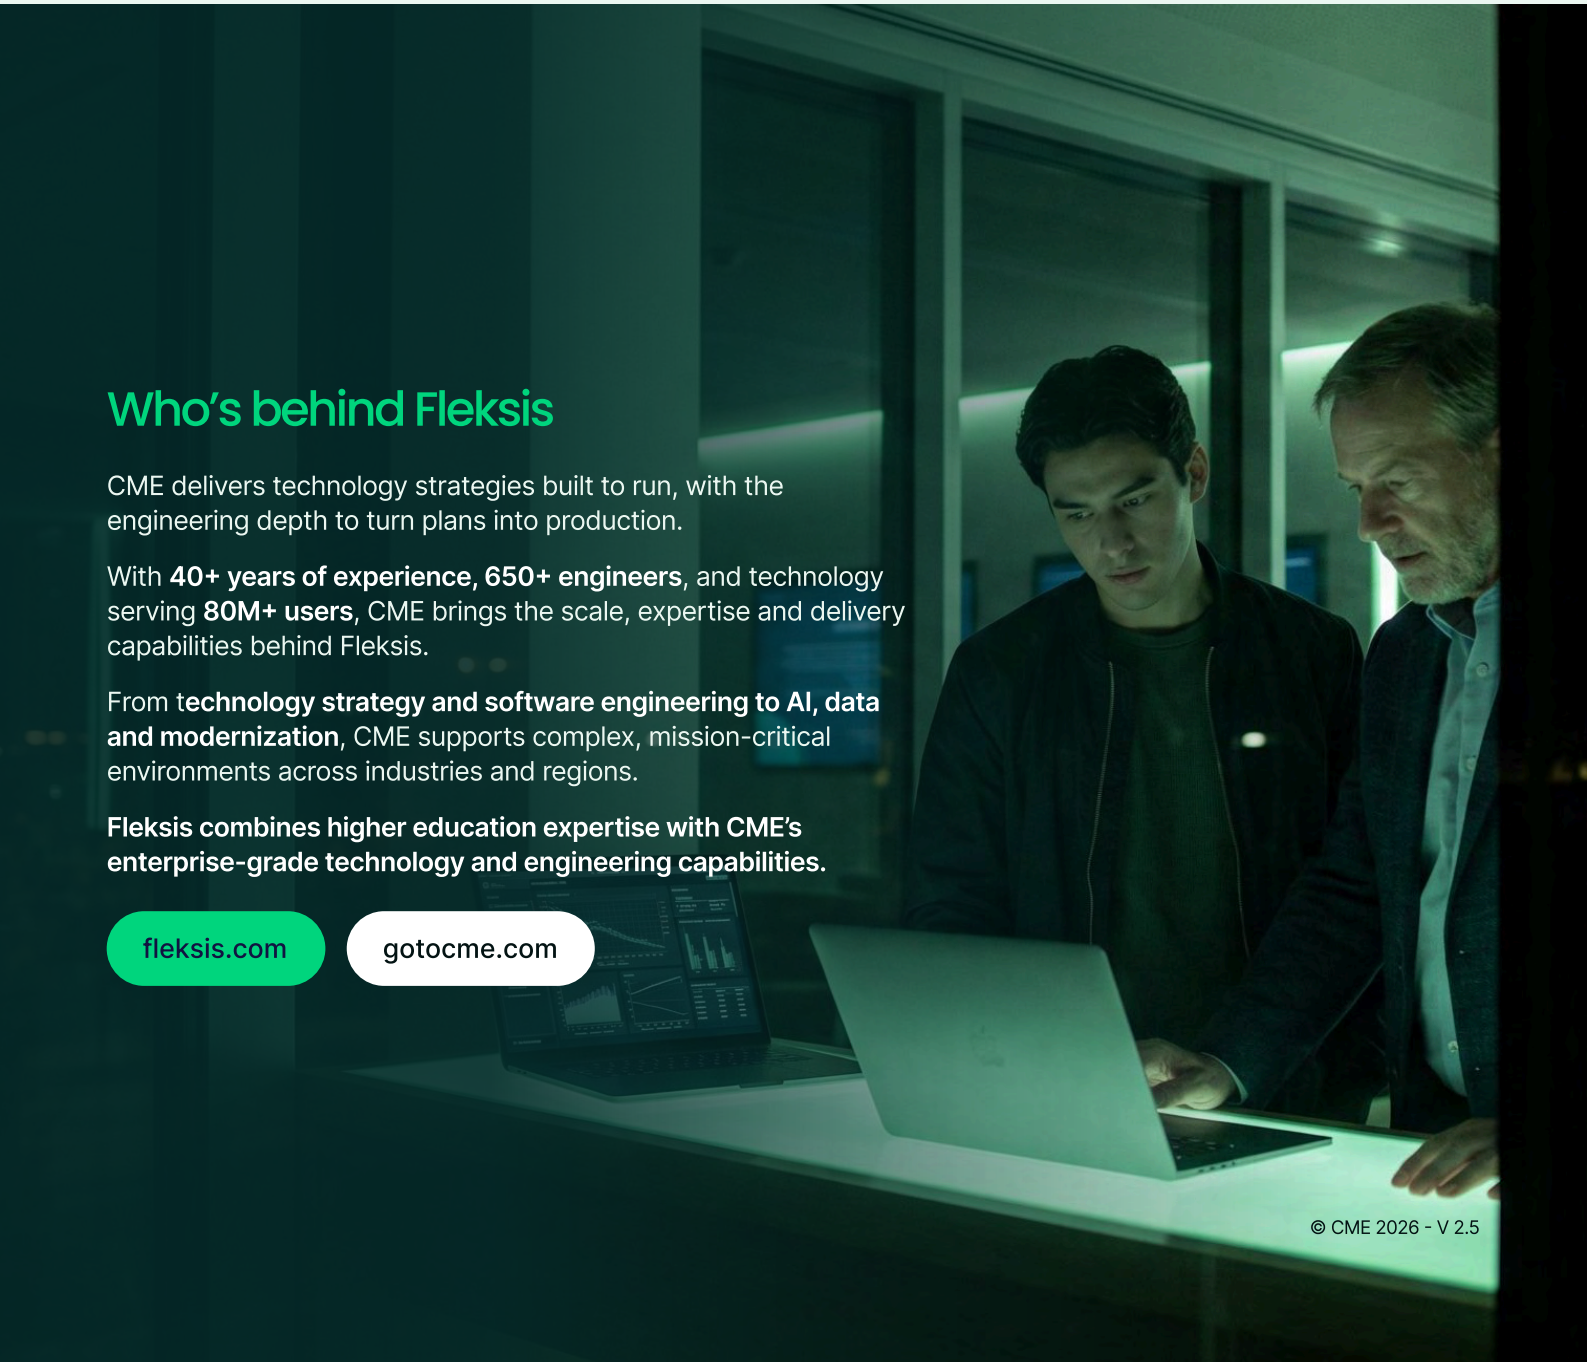
“A comprehensive, cost-effective system delivering an exceptional user experience and innovative functionality.”

Dr. Dany Mezher
Rector’s Advisor for IT Affairs
Université Saint Joseph

ESA goes live with Fleksis in just 3 months

“A robust, efficient platform backed by a responsive team whose ongoing support exceeded our expectations.”

Dr. Lateefa Yassine
Head of IT
ESA Business School



Who’s behind Fleksis

CME delivers technology strategies built to run, with the engineering depth to turn plans into production.

With **40+ years of experience, 650+ engineers**, and technology serving **80M+ users**, CME brings the scale, expertise and delivery capabilities behind Fleksis.

From t**echnology strategy and software engineering to AI, data and modernization**, CME supports complex, mission-critical environments across industries and regions.

Fleksis combines higher education expertise with CME’s enterprise-grade technology and engineering capabilities.
